WHO WE ARE

Know About Us

We consider ourselves as techlosophers. At Techtsy we turn your tech ideas into realities. We aim to create actionable tech insights and practical tools to reduce barriers to entrepreneurs through cutting edge technologies, cost effective solutions and very effective support.

We're a small, flexible and laden with the creative ideas that are just on the finger tips and are ready to take shape. We craft simple and functional web & mobile apps. We simply love developing and designing. Creativity is a part of our culture and we make sure to provide our team the best and most creative environment possible.

What We Made

Befoodie
Food Ordering App

YouFIT
Fitness Tracking App

PoolCABs
Ride Sharing App

My Pasar Borong
Grocery Delivery App

Pharma Care
Medicine Order App

& 10+ Startup Ideas App!

Matrivent

A Wedding Marketplace & Service Booking App

Years back, it was quite a lengthy process to find a perfect match for the wedding, consulting a mediator, referring to magazines holding biodata of the interested persons, and more. But today, everything has just caught-up to a new height, this long process has attained the best substitute, known as matrimony apps and websites. Moreover, such apps have been followed by wedding planning apps now that offer the best match suiting ideally just by a few clicks.

Today, almost every second thing is 'Online.' What is left to become available on the apps? Now, we can find various mobile apps for everything that's easing and comforting our lives. Well, for it, on-demand wedding planning apps are also no exception. The apps are assisting many businesses to reach more people and that too so comfortably. With simple clicks, using such apps, we get complete wedding planning services at our doorstep.

ADVANCED FEATURES

Venue 360 view

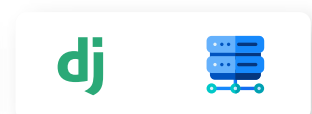

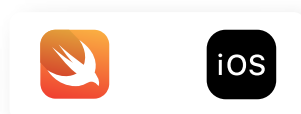

It is one of the best features of our mobile app that allows the customers to have a virtual tour of the venues from 360 views, so that they may get the help to pick the best only after witnessing through their eyes even while sitting at home.

Refine Search

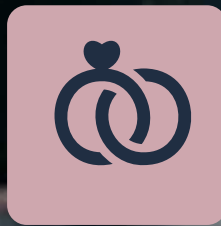

This feature permits filtering the search for the design, venue, etc. ahead, lowering the refining or search down according to the users' budget, need, choice, and location.

The Tools are Used in Matrivent

This application is built with Kotlin (Android), Swift (iOS), React (Front End) and Django (Backend).

N. B. Based upon request we can provide the solution also in flutter (mobile app) and in node.js (Backend) .
